## OSHA BOOT CAMP

**DO YOU KNOW YOUR LEGAL  
OBLIGATION/RESPONSIBILITY AS AN  
EMPLOYER AND/OR SUPERVISOR?**

“U.S. Department of Labor's OSHA fines construction company \$63,000 for alleged safety violations at Clinton, Ark. Worksite”—Feb. 13, 2009 (*OSHA Web Site*)

“Labor's OSHA fines utility contractor \$50,000 for alleged safety violations at Dripping Springs, TX site.”—March 11, 2009 (*OSHA Web Site*)

**The Average OSHA Fine for  
violations is about \$25,000.**

**Get The Knowledge You Need to Keep  
Your Employees and Your Business  
Safe....**

**OSHA is not a choice...  
“IT IS THE LAW”**

Presented by  
**Acadiana Safety  
Association**

**(337) 234-4640**

## OSHA IS NOT A CHOICE "IT IS THE LAW".

OSHA should not be viewed as an obstacle to your business or career, it should be viewed as a tool to guide your business and/or career on a productive Environmental, Safety and Health path. **Knowledge is power!** The knowledge gained in this course will enable you to turn your fear of OSHA and the regulations into a valuable tool and guide. The knowledge gained will turn your fearful management style into a productive management style where you are able to annualize your work place, develop a program, implement the program and monitor your progress. The process will improve your company, your company's insurance and clients rating, production and the Environmental, Safety and Health of your employees.

### Ray Loupe

*Course Instructor*

Ray's career in Environmental, Safety and Health began after High School in the Army Paratroopers as a Sergeant responsible for the safety, training and performance of the members of his

command. Ray's training included Nuclear Weapons. After completing his military obligation, Ray worked the electrical utilities industry where he served as a crew leader responsible managing crews and their safety and training. Ray has worked in the construction industry and petrochemical industry as a safety and training manager. Ray then began a career with Occupational Safety and Health Agency and retired in November 2008 as a Compliance Officer. Ray's duties included enforcement of OSHA regulations, accident investigation and a trainer/lecturer on OSHA at Universities and in private industries.

## WHO SHOULD ATTEND THE COURSE?

- Any business owner who employs one or more employees
- Any person who supervises employees
- Human Resources Managers
- Attorneys responsible for Environmental, Safety and Health Issues
- Persons responsible for Environmental, Safety and Health Issues

## LEARNING OBJECTIVES

- What are OSHA regulations and when are those regulations applicable to your business?
- Learn how to determine what standards apply to your facility
- Learn how to determine what industry standards are incorporated by reference into OSHA Standards

- How to handle an OSHA Inspection and Citation
- Learn about the Multi-employer Work Site Standard (MEWS) and how and if this standard applies to your company

## YOU WILL RECEIVE

- Six (6) hours of intense training on the OSH ACT
- How to use the Occupational Safety and Health Agency web site and access the standards and other valuable training tools and resource materials
- How to use the Code of Federal Regulation (CFR) Main Page which enables you to research all 50 current and past CFR's.
- OSHA Manuals are available at an additional cost.

**COURSE IS OFFERED 1st Tuesday of each month....\$95/student**
